PREFACE

Careful readers of the Lineage Book will note with pleasure the unusual number of supplemental services included in the present volume. This has come about in a large degree through the printing by many New England towns, of their vital records.

Daughters who have in past years made diligent, but fruitless, search for genealogical data, may now hope to find the desired records of families and of Revolutionary service in the libraries of our principal cities. A perusal of volume Forty-four should inspire those whose names will appear in succeeding volumes to renewed efforts in quest of Revolutionary ancestry.
